- AV 2: CVBS in, S-Video
- AV 3: Monitor Out
- Front / Side connections: CVBS in, Headphone out

## Power

- Power consumption: 72 W
- Standby power consumption: < 1W
- Mains power: AC 90-140V, 60Hz

## Dimensions

- Set dimensions in inch (W x H x D): 19.88 x 18.27 x 18.78 inch
- Product weight (lb): 47.52
- Box dimensions in inch (W x H x D): 22.52 x 21.1 x 21.42 inch
- Weight incl. Packaging (lb): 54.15

# Highlights

## Real Flat picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

## Incredible Surround™

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

## Auto Picture

Auto Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program.

## Auto Sound

Auto Sound provides pre-defined sound settings for ultra bass, bass, treble and balance for the optimum entertainment experience.

## Side Stereo AV & headphone

Side stereo AV & headphone makes it more convenient to connect external devices like audio equipment, games and video cameras. It's the easy way to enjoy an extra audio sensation or a totally immersive gaming experience.

## Component Video Input (YPbPr)

Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.
